the program

Entry to the Simon Gerada Table Tennis Academy is by acceptance only, a limited number of athletes will be accepted annually. The program is intense, it's tough, it's dictated by your efforts, it's understanding to your requirements and external cultures, it's a program that continues to deliver national championship standard results.

We'll encourage, support and mentor our students, and will always be constructive in our analysis of their progress. By working harder and smarter, players that are accepted to train and learn at our Academy will become highly revered table tennis opponents of the future. We deliver a program that puts the process in place. Our players are judged on whether they follow the process and not the final win/loss count, helping players understand that they should represent themselves at the highest possible standard at all times - on and off the court, learning to become humble in their successes and gracious in defeat. Defeated but never beaten, every defeat is a learning curb, every victory is reward for the commitment & effort made. Their dedication to improve is our greatest reward.
